Khant Win Soe

UI/UX Designer
Front-end Developer

About Me

Hello, I'm a Front-End Developer with a strong focus on UI design and logical problem-solving. I thrive under pressure and am dedicated to advancing my skills toward becoming a Full-Stack Developer. Passionate about learning and adapting to new technologies, I aim to deliver high-quality, innovative web solutions and drive continuous growth in my development career.

Education

2017 ▶ 2019

Third Year (Mathematics)

DAGON UNIVERSITY

I completed and passed the second year at Dagon University, but chose not to continue to the third year.

1/2021 ▶ 7/2021

FullStack Developer

PAGE MYANMAR WEB TRAINING

Before I started this course, I began learning HTML and CSS from the 72coder YouTube channel, which sparked my interest in web development. Consequently, I chose this course as an external training option. In this course, I had the opportunity to study HTML, CSS, PHP, MySQL, and WordPress technologies.

03/2023 ▶ Until Now

FullStack Developer

CODE LAB TRAINING

I purchased this course through Google Drive and am continuing to study it as a self-study option. In this course, I have also had the opportunity to learn additional skills such as Laravel, Vue, and other technologies.

11/2024 ▶ 2/2025

Developer

PARTNER ASSOCIATES INT'L CO.,LTD

I began my career with Partner Associates Co., Ltd. in November 2023, starting with a 6-month internship. Impressed by my performance, the company offered me an Associate Developer position in May 2024, which included a 3-month probationary period. Following this, I secured a 6-month contract from August 2024 to February 2025. During my 1 year and 3 months with the company, I played a key role as a Claim Module Member within the SSB System project.
In this capacity, I excelled as a full-stack developer, achieving significant expertise in Angular, where I developed a high level of proficiency (around 90%) for front-end tasks. On the back end, I gained solid experience with .NET Core, C#, and SQL, demonstrating about 50% proficiency. My role involved collaborating closely with cross-functional teams, tackling complex challenges, and contributing to the successful delivery of critical software components.

1/2023 ▶ Until Now

Life Insurance Agent

CHUBB LIFE INSURANCE MYANMAR

As a freelance life insurance agent with CHUBB Life Insurance Myanmar, I focus on assisting my close friends, family members, and relatives in obtaining life insurance coverage. In this role, I provide personalized guidance and support to ensure they understand their options and select appropriate coverage plans that meet their needs. My responsibilities include explaining policy details, addressing client queries, and facilitating the application process, all while maintaining strong relationships with clients and delivering exceptional service.

1/2023 ▶ 3/2023

Graphic Design

ASG CREATIVE INNOVATION CO., LTD

During my 2-month on-job training at ASG Company as a Graphic Design Intern, I had the opportunity to develop and refine my design skills by working on a range of projects. I successfully created four distinct logos, each tailored to meet the specific branding needs of different clients. Additionally, I contributed to a collaborative team project, where I applied my design expertise and enhanced my ability to work effectively within a team. This experience allowed me to gain practical insights into the design process and further my skills in creating compelling visual content.

6/2020 ▶ 9/2023

Office Staff

YESC EAST DISTRICT ENGINEER OFFICE

In the office, I am proficient with Microsoft Office Suite, including Word, Excel, PowerPoint, and Visio, and I excel in managing and organizing office files. My technical skills extend to troubleshooting computer errors, installing and configuring software, and replacing hardware components. I am also capable of performing basic network setup and maintenance, ensuring smooth connectivity and functionality. My ability to quickly resolve technical issues and efficiently manage office systems enhances overall productivity and workflow.
